**“BigHaat : A Revolutionary Agricultural E-commerce Platform”**

is the bonafide work of **“PULIKANTI VISHNUVARDAHN REDDY”**

who carried out the project work under my supervision

# Abstract :

" BigHaat: A Revolutionary Agricultural E-commerce Platform"

BigHaat is an innovative ecommerce platform specifically designed to cater to the needs of farmers and agricultural enthusiasts. The website aims to bridge the gap between farmers and the vast array of agricultural products, knowledge, and services available in the market. The preparation of the Big Haat website involves several key steps to ensure it is user-friendly, resource-rich, and accessible to its target audience.

The webpage "**BigHaaT** : a tool of farmer presents a visually engaging guide to the best insecticides , pesticides , delivery options available all over India . Utilizing a clean and responsive layout built with HTML and styled with CSS, the page emphasizes user-friendly navigation and an attractive interface. Key features include sections highlighting top-rated companies , popular cuisines, and eco friendly medicines , each enhanced with appealing images, bold typography, and vibrant color schemes. A dynamic structure allows for seamless viewing on both desktop and mobile devices, ensuring accessibility for all users.

# CHAPTER – 1

## Introduction To

### “BigHaat: A Revolutionary Agricultural E-commerce Platform”

BigHaat is a dynamic ecommerce platform tailored specifically for the agricultural sector . It provides farmers with a wide array of products, from seeds and fertilizers to tools and machinery. BigHaat aims to empower farmers by giving them easy access to quality agricultural inputs, backed by expert advice and support. Essentially, it's a one-stop-shop designed to enhance productivity and sustainability in farming. What else would you like to know about it?

BigHaat's vision is to revolutionize agriculture by making it more efficient and profitable for farmers. Their mission is to bridge the gap between technology and agriculture, ensuring that farmers have access to the best products and information.

BigHaat is one of the largest and innovative Indian full-stack AgriTech platforms that is dedicated to revolutionizing the agricultural industry in India. The platform leverages technology to provide a wide range of solutions and services to farmers, helping them optimize their agricultural practices, increase productivity, and ultimately improve their livelihoods.

By integrating technology, data-driven insights, and a deep understanding of the agriculture sector, BigHaat aims to improve the overall agricultural ecosystem, increase farm yields, reduce input costs, and enhance the well-being of farmers across India.

## CHAPTER – 2

### Project Overview:

#### **Purpose :**

- **BigHaat : Empowering Indian Agriculture**

BigHaat is dedicated to transforming the agricultural landscape in India. Its primary goal is to enable farmers to access high-quality agricultural inputs, technology, and knowledge to boost their productivity and income. Here's an overview of its purpose and approach:

- **Access to Quality Inputs**

BigHaat provides a wide range of agricultural products including seeds, fertilizers, pesticides, and farming equipment. By ensuring that these inputs are readily available and of high quality, BigHaat helps farmers achieve better yields and healthier crops.

- **Bridging the Information Gap**

One of BigHaat's key purposes is to bridge the information gap that often hinders farmers. It provides expert advice, educational resources, and up-to-date agricultural practices. This support helps farmers make informed decisions that can significantly impact their productivity and sustainability.

- **Digital Innovation**

BigHaat leverages digital technology to bring the latest innovations to farmers' fingertips. Through its platform, farmers can access products and information seamlessly, regardless of their geographical location. This use of technology helps modernize traditional farming practices and makes agriculture more efficient.

## Key Sections:

1. **Home:** The landing page that provides an overview of the platform, latest updates, and featured products.
2. **Products:** A detailed catalog of agricultural inputs such as seeds, fertilizers, pesticides, and machinery. Each product includes descriptions, usage instructions, and pricing.
3. **Crop Advisory:** Expert advice on crop management, pest control, and best farming practices. This section helps farmers make informed decisions.
4. **Marketplace:** A space where farmers can buy and sell agricultural products and services. It also includes options for cash on delivery and other payment methods.
5. **User Accounts:** Personalized dashboards for farmers to track their orders, manage their profiles, and access personalized recommendations.
6. **Support:** Customer service and technical support for any issues or questions farmers might have.
7. **Community:** Forums and discussion boards where farmers can share experiences, tips, and advice with each other.
8. **Blog:** Articles and resources on the latest trends, research, and innovations in agriculture.

## Outcome:

By providing insights into the best e-commerce and delivery is available.

The project will serve as a practical resource for Farmer to make better For better farming instruments that suit budgets.

## CHAPTER – 3

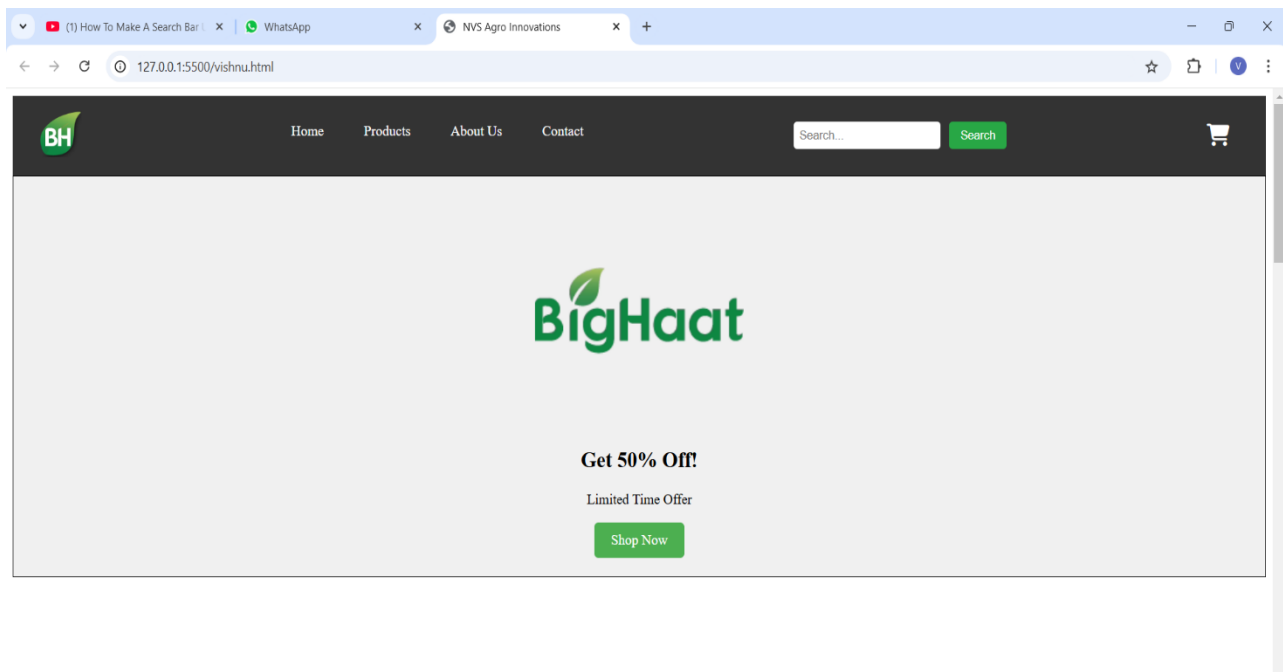

### SCREEN SHOTS OFF WEB PAGE

The “ BigHaat : A Revolutionary Agricultural E-commerce Platform”

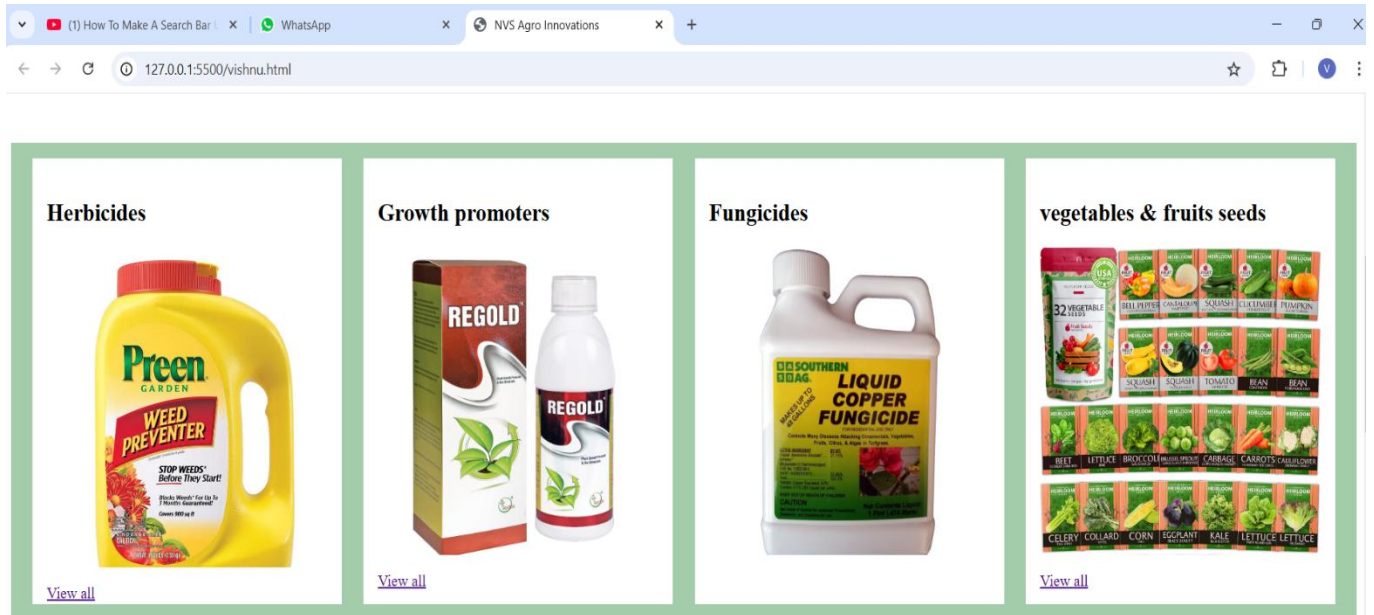

Webpage boasts a clean , modern interface designed with HTML for structure and CSS for style .

Bighaat used to streamline the farming process, enhance productivity, and ensure farmers have the support and resources they need to succeed.
